

Make a Rainbow Jar

1. Get an empty jar and cap
2. Fill your jar with about 20 pom poms: you choose the colors and sizes. Talk about how they look and feel and practice counting to 20 together!
3. When your jar is full of rainbows, cut out a Rainbow Jar tag and use a ribbon to tie the tag around the neck of the bottle.
4. Voila! This toy is great for quiet time, car rides, and screen free play. Children can take the pom poms out of the jar and put them back in, practicing their fine motor skills and colors.
